Dutch (Native)  
English (Fluent)  
German (Conversational)  
Swedish (Basic)

## Experience

### Waiter

**Greek Restaurant Plato** Januari 2009 - Februari 2009

Useful internship period to learn about structure and receiving constructive criticism.

### Junior Graphic Designer

**Internship Play Like A Champion** September 2011 - Januari 2012

In the 5 months working here I learned a lot about Photoshop, Flash and designing for the target audience. Responsible for Photoshopped and animated banners, performance optimization and the maintenance of the site.

### Junior Designer

**Internship MediaMountain** September 2012 - Februari 2013

5 amazing months of creating Photoshopped mockups, using InDesign scripts and even traveling to Austria to work long and fun days.

### Mail sorter

**Royal PostNL** June 2013 - October 2013

I learned to work organised, as well as under severe stress in the mail sorting center.

### Junior Graphic and Web Designer

**Internship Glimworm** September 2013 - January 2014

The 4 months spend at Glimworm were primarily based on creating websites using the open source CMS Wordpress. I've enjoyed working on sales and telemarketing as well.

### Erasmus in Sweden

**Mid Sweden University** Januari 2016 - June 2016

The most useful period I've had since it taught me to work with other European students while completing assignments focused on graphic design.

### Graphic and Web Designer

**Yilps** September 2016 - Februari 2017

I've enjoyed working in two major departments, the first one was focused on marketing and graphic design. The second one was completely focused on building websites using Wordpress.

### Freelance Designer

**Rick Bierman Designs** December 2016 - Present

After 7 years of studying design disciplines I've decided it was time to start for myself.
